REACH

- 14+ years across 6 countries
- 20+ enterprise customers
- Teams of up to 15 led

AI & RAG

Python, asyncio

sentence-transformers

ChromaDB, pgvector

Ollama (local LLM serving)

RAPTOR proposition extraction

ACL-aware retrieval

Semantic chunking

Prompt engineering

LLM-as-judge evaluation

Streamlit, REST APIs, Parquet

CLOUD

- **AWS** — EC2, ECS / EKS, S3, VPC, IAM, ALB / NLB, Route 53, CloudWatch
- **Azure** — AKS, Virtual WAN, Virtual Network, Firewall, Entra ID
- **Containers** — Kubernetes (AKS, EKS), Docker
- **IaC** — Terraform

OPENTEXT

Content Management (Content Server)

Archive Center, OTDS

Intelligent Viewing, Brava, Blazon

PROFILE

Solutions Architect with 14+ years designing and delivering enterprise content platforms across 20+ customers in 6 countries. Deep specialism in OpenText Content Management and Extended ECM, paired with hands-on AWS and Azure cloud architecture and Kubernetes-native deployments.

Currently extending that practice into production-grade Retrieval-Augmented Generation over enterprise content — building permission-aware AI pipelines that bring governed Q&A and agentic workflows to OpenText repositories. Trusted advisor in presales, large-scale migrations, and cloud transformation, with a track record of leading cross-functional teams of up to 15 and translating complex compliance and integration requirements into pragmatic, scalable designs.

EXPERIENCE

Turnpikes · Solutions Architect

Jan 2022 – Present

Denmark

- ▶ Lead presales and solution design for OpenText ECM and Extended ECM engagements across European enterprise customers, contributing to a multi-million-euro pipeline.
- ▶ Architected migration design for ingesting 150M documents into OpenText Content Management on Kubernetes, with high-availability and horizontal-scale targets.
- ▶ Act as Product Manager for Turnpikes' proprietary migration tool — own roadmap, prioritisation, and feature delivery to improve ingestion throughput and cutover predictability.
- ▶ Built partner enablement playbooks and run quarterly technical workshops, growing partner-led opportunities by ~40%.
- ▶ Architected and prototyped a production-grade RAG platform over OpenText Content Management — REST-based ingestion, sentence-transformer embeddings, ChromaDB with a pgvector upgrade path, local Ollama serving, ACL / permission enforcement at retrieval time, RAPTOR-style proposition extraction for atomic-fact recall, and an LLM-as-judge evaluation harness covering faithfulness, answer relevancy, context precision, and context recall.
- ▶ Delivered a Streamlit admin and analytics dashboard for the RAG platform — corpus statistics, cache hit rates, query analytics, latency trends, and live evaluation metrics.
- ▶ Champion customer feedback into OpenText product teams, influencing roadmap items for ECM and Extended ECM.

Accenture · Associate Manager

Aug 2021 – Nov 2021

India

- ▶ Short-tenure role concluded ahead of relocation to Denmark.
- ▶ Led an 8-member technical team across presales and delivery for OpenText EIM and Extended ECM, sustaining a 95% project success rate.
- ▶ Built AWS and Azure cloud-migration training modules to enable co-sell motions and partner enablement.
- ▶ Ran discovery workshops to translate solution value into client business outcomes.

IBM · Business Manager

May 2021 – Aug 2021

India

- ▶ Short-tenure role concluded ahead of relocation to Denmark.
- ▶ Architected Extended ECM integrations for SAP and Salesforce, lifting deployment efficiency by ~30%.
- ▶ Presented technical roadshows to senior stakeholders covering OpenText compliance, governance, and analytics.

OpenText · Architect

Jan 2016 – May 2021

India / Global Delivery

Extended ECM — SAP,
SuccessFactors, Salesforce

DATA

Oracle, SQL Server, PostgreSQL, SAP
HANA

DELIVERY

Agile, Waterfall, JIRA, Confluence
Postman, JMeter

LANGUAGES

English — Professional
Hindi — Native
Danish — Basic

- ▶ Engineered end-to-end ECM and Extended ECM implementations for clients in KSA, Brazil, the USA, and across Europe; container-native deployments delivered ~25% CAPEX / OPEX reduction.
- ▶ Improved scalability ~60% and cut peak-load latency by tuning content indexing, retrieval workflows, query patterns, and infrastructure topology.
- ▶ Delivered on-prem-to-AWS migrations of 65 TB archives with zero data loss and sub-2-hour cutover windows.
- ▶ Architected Extended ECM for SAP and Salesforce integrations, lifting deployment efficiency ~30%.
- ▶ Led presales workshops and implementation reviews, contributing to a 95% project success rate by aligning architectural choices with business outcomes.

Accenture · Senior Software Engineer

Aug 2011 – Jan 2016

India

- ▶ Executed multiple OpenText upgrades (9.7 → 16.2) and migrations, owning technical architecture, testing strategy, and rollout.
- ▶ Implemented monitoring and alerting across OpenText landscapes, reducing incident-resolution time by ~50%.

SELECTED ENGAGEMENTS

- ▶ **SABIC, KSA** — Led complex ECM upgrade (10.5 → 16.2) under tight outage windows; partnered with OpenText engineering for minimal-downtime execution.
- ▶ **JIO, India** — Designed ECM landscape for 2M records / day ingestion; remediated infrastructure and database bottlenecks; completed 65 TB Windows-to-Linux cluster migration.
- ▶ **Securex, Belgium** — Lead architect for Extended ECM for Salesforce; planned migration of 150M documents into OpenText Content Management.
- ▶ **TATA Steel, India** — Designed Extended ECM solution handling 20K workspace creations / day across 19 SAP business objects (MM, PM, HR) for 10K active users.
- ▶ **SCG, USA** — Managed 30+ server AWS landscape; designed minimal-downtime and DR strategies, reducing outage impact by ~90%.
- ▶ **Orion, Finland** — Lead Architect and Delivery Owner for Extended ECM for SAP; ensured GxP-compliant delivery for regulated pharmaceutical workloads.
- ▶ **Region Skåne, Sweden** — Customised OpenText for public-sector workloads; led on-prem-to-AWS hosting transition with critical-issue production support.
- ▶ **Also delivered for** — Banco Original (Brazil), EcoPetrol (Brazil), NAGE (UK), Edelweiss (India), Girtoka (Portugal). Architecture, capacity planning, AWS rehosting, FDD / TDD authoring, and go-live leadership across financial services, energy, public sector, and logistics.

CERTIFICATIONS

- ▶ **OpenText** — Content Server Administrator, Content Server Business Consultant, Content Server Developer, Archive Center Administrator, Extended ECM for SAP (Solution Foundation & Advanced), Extended ECM for SuccessFactors.
- ▶ **AWS** — Solutions Architect – Associate, Developer – Associate, SysOps Administrator – Associate.
- ▶ **Azure** — Azure Fundamentals, Azure Data Fundamentals.
- ▶ **ITIL** — ITIL 4 Foundation.

AWARDS

OpenText — Champions Award (2016, 2018, 2019), CEO Excellence Award (2017).

Accenture — Voice of the Customer (2014, 2015), Employee of the Year (2013).

EDUCATION

Bachelor of Engineering · Electrical Engineering

M.I.T.S., R.G.P.V. University, Bhopal, India · Grade A

2007 – 2011
